

OKEANOS BEACH BOUTIQUE HOTEL

ENVIRONMENTAL & SUSTAINABILITY POLICY

Our company is committed to conducting all operations in a manner that ensures environmental protection, social responsibility, and economic sustainability, in line with national and European legislation and the best practices of the hospitality industry.

We aim to:

- Fully comply with and, where possible, exceed all applicable legal and regulatory requirements, maintaining transparency and continuous improvement.
- Adopt environmentally friendly practices that minimize pollution, waste, and the use of scarce resources, while improving energy and water efficiency and reducing greenhouse gas emissions.
- Promote sustainable tourism that contributes to the long-term prosperity of our business and the local community.
- Respect and enhance local culture and biodiversity, supporting their preservation and appreciation.
- Ensure fair employment conditions, equality, and non-discrimination in all aspects of our operations.
- Provide safe, high-quality, and inclusive experiences for all guests and visitors.
- Engage clients, suppliers, subcontractors, and the community to embrace sustainable and responsible management practices.

Our company ensures that:

- All employees receive proper training and awareness to understand the environmental and sustainability aspects of their work.
- Environmental and sustainability performance is monitored and evaluated regularly, focusing on energy and water consumption, waste management, and use of chemical substances.
- Our Sustainability and Environmental Management System is continually improved and reviewed annually.
- Senior Management invites all staff to actively participate in achieving our environmental and sustainability objectives, ensuring the company's ongoing positive impact on people, planet, and prosperity.
